POLY OUTDOOR FURNITURE

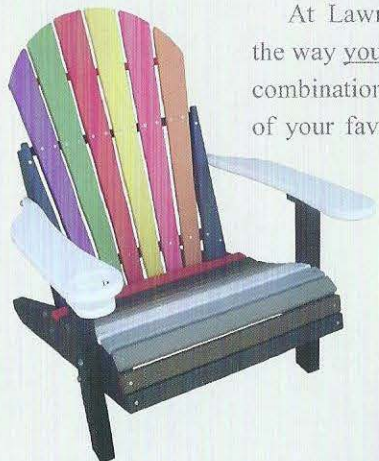

Durable Quality with Lifetime Beauty

Our poly outdoor furniture is built from recycled plastic (like milk jugs). It will not crack, rot or splinter. Never needs painting or refinishing. Can be left outside year round. It maintains its beauty by cleaning regularly with non-abrasive soap and warm water. Lighter colors such as white may need to be cleaned with a soft brush using mild soap and warm water to maintain its clean look.

Our furniture is assembled using stainless steel bolts and screws. Swing chains have an 800 lb. rating on each side. All 4' and 5' swings, gliders and benches have heavy duty aluminum angles for stiffening support. We use poly glider hanging arms assembled using double stainless steel bearings at all hinge points. This provides a more heavy duty and smoother glide. All furniture comes standard with cupholder in both arms.

COLORS

Design your Furniture your Way!!

At LawnCraft we strive to make your furniture the way you want it. We can mix and match any color combination you wish. Those may include the colors of your favorite team or school. Colors shown may vary some. Ask to see actual sample blocks of colors available. Do not like the cupholders. No Problem! Order yours without. You can also option between stainless steel verses zinc chains. Both are rated at 800 lb., but zinc will eventually lose its shine and become discolored.

CHERRYWOOD & BLACK

ECONO STYLE

Are you wanting some poly furniture, but think it too expensive? Consider our Econo Line. Our Econo Line is just this: Economy! We use the same plastic lumber as our other lines but it is not made quite as heavy-duty. Also there are not as many of those nice round edges and no cup holders. It is available only in our standard colors (see color chart, page 3) with a black base. The bearing hangers are powder coated to last many years of normal use. Zinc chains will be standard on the swings. The Econo Line is still assembled using stainless steel screws and bolts.
