### Mermaid Mobile Water Lab- End of Season Testing Available

We recommend testing and balancing water 48 hours prior to pool closing. Run out of time? Always forget the last water test? Let our Mobile Water Lab come and balance your pool 2-3 days prior to closing.

*Our Water Lab technician will text day prior to test.*

#### Pool Closing test and balance - \$30 plus any chemicals needed

### **Pool Closing Includes:**

- \* Blowing suction and return lines with air and installing all winterizing equipment.
- \* Winterizing pump and filter by removing plugs/caps to drain.
- \* Installing winter plugs and removing gauges.
- \* Winterizing of heater.
- \* **Handrails and diving boards are NOT removed unless requested or necessary to install/close winter cover.**

### **IMPORTANT THINGS TO REMEMBER BEFORE WE ARRIVE:**

- *Due to the amount of pool closings in a day we are unable to provide an exact time of service. A message when technicians are on the way can be done if requested.*
- Technicians **will not** provide any pool cleaning during closing.
- Technicians **will not** lower water level of pool at closing. **\*\*Due to ground water issues in Central Indiana, Mermaid does not recommend lowering water level, instead using a winterizing gizzmo in skimmers. *Do not lower water if you have an Auto Cover.***
- Technicians are unable to balance water chemistry at closing, we recommend bringing a pre-closing sample in store at least 48 hours prior to pool closing or schedule our Mobile Water Lab for a visit! Adding winter chemicals doesn't guarantee a clear pool in the spring.
- Leave all winterizing equipment and accessories easily visible from pool and within 10 feet of pool edge.
- Water and debris (leaves, sticks, etc.) must be removed from cover to avoid a **\$100.00 per hour** extra service fee that will automatically be added to closing if not performed by homeowner.
- Additional service/repairs/parts at closing (i.e., replacing seals, winter plugs, orings) will be charged for additional parts and labor.
